

## Billy (仲廷)

Although I only have one year of experience as a frontend engineer, I invest a lot of effort in coding. I enjoy developing not only at work but also in my personal time. I lay emphasis on making my code clean and I like to discover new things.

[newsbielt703@gmail.com](mailto:newsbielt703@gmail.com)

Taipei (or Taoyuan), TW

## Education

B.S. degree in Department of Information Management, National Taipei University of Business (NTUB).

I have graduated in June 2019.

How to set up a server with Linux, write a spider in python, create a simple website, etc. I don't think what I learned from school is enough, but it gave me a chance to try it. Fortunately I found I'd like to work with these skills. In my spare time, I joined a basketball team of department. I even became a team captain. Sometimes it's hard, but it's also a unique experience to me.

## Skills

### Layout

- HTML
- PUG
- CSS
- SASS

### JavaScript

- Vue.js (*Vue Router, Vuex ...*)
- React.js (*Redux, Hook ...*)
- Node.js (*Express.js*)
- JQuery
- TypeScript
- Unit Test
- E2E Test

### Others

- Git
- CLI

## Experience

### Galaxy Software Services Corporation , Mar 2019 - Present

Frontend Engineer Intern - Maintain and develop large applications:

- Communicate with UI/UX designers and Creating new features
- Fix bugs of existed projects
- Writing tests to refactor safely
- Writing project documentation

### Tapbee Inc. 02, Aug 2018 - Mar 2019

Research Development Intern - Develop new product

- Usually focused on client side (frontend)
- Sometimes develop some backend apis with Node.js

# Projects

## Vital BizForm

A cloud application for user to manage their business form.

It was the first project I tried to use React. I discovered some new stuff during the process. I found I like React as much as Vue, so I'll keep diving into both.

Leveraged skills :

[React.js](#) [React Hooks](#) [Redux](#) [styled-component](#) [TypeScript](#) [RxJS](#)

---

## FormEditor

A web application for user to layout a form template online themselves.

It was already an existed Application when I started working on it. I found It was quite complicated and I learned a lot by understanding the code and logic.

Leveraged skills :

[Vue.js](#) [Vuex](#) [ElementUI](#) [SASS](#) [Unit tests](#)

---

## Vocabulary-admin

A website developed only for myself to improve my English ability.

Actually it's improving not only my English but also my programming skills, since Sometimes I'll try to use some new stuff with this project when I discover it.

Leveraged skills :

[Vue.js](#) [Vuex](#) [ElementUI](#) [SASS](#) [Unit tests](#) [Firebase](#) [Pug](#)

---

## Simple Cart Admin

An admin website for managing goods of Simple Cart (the project below)

It was Based on vue-admin-template. I learned some tips by viewing the source code of the template.

Leveraged skills :

[Vue.js](#) [Vuex](#) [ElementUI](#) [Pug](#)

---

# Simple Cart

A simple small shopping website used as a webView.

My company had this urgent need and let me develop myself from scratch, so I chose to use Vue since I had just learned it. I made myself familiar with Vue during the process.

Leveraged skills :

[Vue.js](#) [Vuex](#) [ElementUI](#) [Pug](#)

---

# AUO Lohas

An app which is like a social media, but just for employees of the company.

I was in charge of the frontend part independently. Since I rarely used plugins in this projects, I improved my JavaScript skills a lot.

Leveraged skills :

[HTML](#) [SASS](#) [JavaScript](#)

---

# S&D coffee

An app of a chain coffee shop.

It was already an existed App when I started working on it. I optimized the App ,fixed some existed bugs and created new features such as paying online,.

Leveraged skills :

[HTML](#) [SASS](#) [JavaScript](#) [Cordova](#) [Node.js](#) [Express.js](#) [MySQL](#)

---

# Self.Vietnam

My independent study.

I was in charge of the frontend part. It's a multipage website build with PHP to introduce Vietnam.

Leveraged skills :

[HTML](#) [SASS](#) [JavaScript](#) [Google Maps API](#)

---
